Gentlemen:

Problems have arisen with the order we received from you on April 10. We hope that you can assist us with this issue.

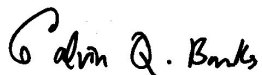

Our order form shows that we ordered 16 microdiscs, Stock No. TE198. (We are attaching a copy of the original form.) Unfortunately, what we received, and what appears on the invoice that came with the order was 19 microdiscs, Stock No. TE66. We cannot use the TE66 microdiscs for our printer even if we chose not to return them.

Will you please see that we receive the correct order as soon as possible and credit our account for the 19 units of Stock No. TE66, which we are returning to you by first-class mail. We need the correct templates by April 23.

Please call me at (207) 626-8249 if there is any additional problems with this order. Since we must have the correct equipment, I'll have to make other arrangements if your company cannot fill the order as sent.

Very truly yours,

Payne & Wheatley Stationers
