{Main Sales Letter: 15 pages, 8 1/2" x 11" white paper, 3/c, 3 different size lettering}

**Discover What 17 Million Chinese Take Everyday to Boost Energy Levels
...And the benefits don't stop there!**

- **Enjoy sexual satisfaction well into your 70's.**
- **Slice 20 years off your appearance—even if you've smoked.**
- **Lose 10 pounds without counting carbs or strenuous exercise.**

{Picture of *Hydrilla verticillata* placed in the middle. Looking fresh cut and in someone's hand. Shot on 12/1/04. Has the caption: Miracle Alternative.}

Documented research proves that this natural alternative really does work wonders!
If you are a male between the ages of 35 to 70, read on...

Just south of Shanghai, lies the small fishing village of Linhai where **10 times as many men live past the age of 82 than in the United States.** Even though these men age, **they age healthier.** They continue to enjoy **high energy levels, great libido, and better memory** as they age. Prostrate cancer is virtually unheard of.

Even after spending decades of fishing in the sun, their skin remains well toned and smooth. *Even among those who smoked.* Their joints remain mobile despite the backbreaking labor of rowing their small fishing boats. *Why is this?*

Dear Friend:

Are you ready to experience a powerful new approach to energy? Are you ready to start *and end* each day feeling more alert and active? Are you ready to have your wife tell you that you perform like you did at age 25?

If you're like 69% of American men, you want to return to a much better running body. It's just that simple. You just don't have the energy and stamina that you once had in your 20's.

Your energy is decreasing, but your responsibilities are increasing

Are you overwhelmed yet?

Like most American men between the ages of 37-52, you are juggling the multiple responsibilities of **a father, a husband, a breadwinner or co-breadwinner, an employee, and possibly a golf or tennis partner.** Sometime over age 52, you'll also be juggling the responsibilities of a grandfather! And there is a small chance that between the ages of 46 to 58, you may be taking care of one or both of your aging parents.

Whew! It's tiring to think about, isn't it? Let's face it. No one wants to get old. In a culture that is obsessed with youth and vitality, there really isn't much room for a "tired, old man." Is there?

{Picture of Dr. Martin Smith on the right-hand side wearing a lab coat and sitting at his desk. Shot on 12/1/04. Has the caption: Dr. Martin Smith}

Hello. My name is Dr. Martin Smith. I received my undergraduate degree from Oxford University and my medical degree from Johns Hopkins University. **Despite a distinguished career, I could not stop my own father from suffering.**

I watched helplessly as my father slowly deteriorated from the inside out. After watching him go from a healthy, robust man to a listless, sluggish, apathetic man, I decided to do the unthinkable.

I decided to go against conventional medicine. I decided to explore natural methods of healing.

Experience the unlocking of 5,000 years of Chinese medicine.

While taking a sabbatical in Linhai, I began researching ancient Chinese herbs dating back some 5,000 years. I wanted my research to help me understand *and prove* that once a body is treated as a whole—not just the symptoms—that *harmony* is restored. *I soon realized that I had discovered the harmony that would restore my dad!* **And the same harmony that is going to restore you back to an energetic, youthful man with a healthy sex drive.**

As a practicing physician, I had long suspected the Western diet as the biggest culprit to our health and immune system. I wanted to find a way to battle the damaging effects of the Western diet. I did it. I have succeeded!

Unlocking the Ying and Yang of medicine.

The ying and yang. The passive and active. All parts must work together as a whole. When one ingredient is altered the entire whole is altered.

For centuries the Chinese have been using the herb **ginkgo biloba to support blood flow to the brain. Gotu Kola to support memory function, and ginseng to support vitality. Add ginger to the mix and the four will work together to also lower blood cholesterol levels.** *This was no secret to me and probably not to you either!* These three supplements were already being touted and sold alone or in combinations in health food stores and drug stores in the United States.

I had to capture these powerful, superior long-term herbs into capsule form with the right RDA. But there still seemed to be a missing ingredient to my formula.

By accident I discovered the most powerful superfood known to man

By complete accident I discovered my miracle food—*Hydrilla verticillata*. A wild-harvested, rooted algae growing rampantly in saltwater and annoying the local LinHai fisherman.

Not only does it eliminate free radicals, but eliminates them from forming in the first place. Free radicals are microscopic enemies that attach to the air you breathe and the water you drink. They make their way inside your body and eat away at your once vibrant body!

By reducing the number of free radicals within you—you'll age slower, you'll have increased energy, and you'll burn fat and eliminate excess water from your body.

With *Hydrilla verticillata* the benefits keep coming!

In researching *Hydrilla verticillata*, I was amazed by its ability to eliminate toxins. How did I discover this? Because in LinHai attempts were made by the fishermen to unclog certain boating lanes and eliminate further growth of *Hydrilla*. When herbicides failed, subsequent tests revealed that not only did *Hydrilla* survive the poisonings..it detoxified the surrounding water!

Are you beginning to understand how *Hydrilla* is going to make you healthier, more energetic, and more disease-resistant than you've ever been before?

Then why the name Immuno-Max 5?

Because of the 5 super-charged ingredient categories—that's why!

Not only does Immuno-Max 5 contains the super food, *Hydrilla verticillata*, it also contains whole food extracts and tonic whole food extracts. Not to mention the naturally occurring food factors, and an adequate amount of essential vitamins and minerals. Each category will work both independently and with the other categories to boost your energy and immune system. Hence the name, Immuno-Max 5.

Are we claiming too much?

We don't think so. And you won't either. Once you start taking Immuno-Max 5, you'll immediately notice an increase in your energy. Again, it's those 5 super-charged ingredient categories:

- Super-food, *Hydrilla verticillata*, combined with alfalfa makes an unbeatable source of magnesium-rich chlorophyll. Something that the Western diet is deficient in and will **boost your energy and more.**
- **Tonic whole-food extracts** many of which I rediscovered in Chinese medicine. **Ginseng, Gotu Kola, and Ginkgo** to name a few. All of these will boost your immune system by **fighting free radicals**, which are waiting to destroy your body.
- Naturally occurring food factors such as **SOD (Super-Oxide Dismutase), Glutathione, and Beta-Glucans**, all of which **fight free-moving radicals** with the help of vitamins.
- **Vitamins and minerals such as Vitamin A, Vitamin B-12, and zinc to aid the naturally occurring food factors.** All of which you would recognize on the label of any multi-vitamin. But we have made certain that they are of superior quality.
- *Whole food extracts such as pumpkin seeds, which give two important benefits to men only. More on that later!*

{Picture of J. Cunningham on the left-hand side. He is assisting a male athlete on the bench press. Photo was sent in with testimony. Testimony just below photo:}

"All athletes that I have trained in the past year have added your formula to their diets. The results have been amazing. This product even keeps world-class athletes in top form."

--J. Cunningham

Our motto is "The merging of modern science with age old wisdom."

This is our company's motto and our product, Immuno-Max 5, has become my *magnum opus* to the vitamin world! **And Immuno-Max 5 is your answer to your increased energy, vitality, and better overall health.**

Even Einstein understood this.

Well, Einstein DID understand energy with his famous equation, $E = mc^2$. Remember high school physics class? Your body posses two kinds of energy: kinetic (motion) and potential (non-motion). Simply put: **Energy is the ability to do work.**

Studies confirm that 90% of all financially successful individuals accredit their energy levels to their number one reason for success. Enthusiasm came in second. Self-image came in third, and self-discipline was forth. **Everything starts with energy.**

Would you like a bigger paycheck by next year? How about a better sex life in three months? Well, then get more energy!

What exactly is wrong with the Western diet?

Well if I just started with heart disease, obesity, impotence, and diabetes, I still wouldn't have time to cover all the problems.

The biggest problem that I have found in my research is our foods are dead foods. Most of us overcook our food. Anytime that food is cooked over 118° F for 30 minutes or more, the enzymes are lost. Enzymes are the spark plugs or "living" part of our food.

When our bodies are forced to draw upon the metabolic enzymes verses the digestive enzymes, our bodies degenerate. Arthritis, heart disease, hypertension, immune problems and possibly cancer are in our future.

Then there is also the problem of processed food and fast food. The average American consumes 150 pounds of sugar in one year! White flour is the main cause of constipation and food allergies.

Add that to the depleted soil that grows the few fruits and vegetables—we actually eat—it spells disaster!

Luckily Immuno-Max 5 is scientifically formulated with all of the correct RDA (Recommended Daily Allowance) for a man of your age level.

Don't be a stress eater.

Obesity has almost taken over cigarette smoking as the leading cause of preventable deaths. In 2003, tobacco caused 435,000 deaths or 18.1% while obesity caused 400,000 deaths or 16.6% of the adult population.

According to statistics 1 out of 2 adults are overweight. And 1 out of 3 adults is obese or 30% above the recommended weight. Now be honest. Which one are you? Well, now you don't have to be either one.

The super foods (*Hydrilla verticillata* and alfalfa) are both natural appetite suppressants. We all eat more under stress. The hawthorn berry and Siberian ginseng in Immuno-Max 5 will also help you deal better with stress.

Blast fat right out of your body!

Don't be the stereotypical middle-aged man with a "spare tire" around your middle. Let the *Hydrilla verticillata* in Immuno-Max 5 get you off the couch with more energy.

Wouldn't it be great to reclaim that washboard stomach you once had? Remember all of the stares that you got when you took your shirt off?

***Hydrilla* is also a natural appetite suppressant that also supports muscle growth and healthy blood sugar levels. No more cravings!** You'll actually feel fuller and satisfied with the energy to now start living the life you've put on hold! Now you can toss that football around with your son or finish sanding the deck you've been promising your wife for past three months.

{Picture of D. Brockman on the right-hand side. He is jogging with a client. Photo was sent in with testimony. Testimony just below photo:}

"I'm a personal trainer, and to stay successful at what I do, I have to be at the peak of physical performance. And there's no way I can get that up on power bars and energy shakes! Fortunately, I've found something even better. Your formula definitely keeps my energy level up, which in turn helps me to motivate my clients into reaching their fitness goals."

-- D. Brockman

Scarier than science fiction

We Americans are eating so poorly that our food is now eating us! It's true. Our DNA and immune system are being brutalized by excessive amounts of sugar, salt, and white flour. **This is causing your own body's antibody-producing cells to launch an attack on you.** Your body! These antibodies are attacking your thyroid and muscles causing viruses and temporary numbness. Seizures and paralysis are caused in extreme cases.

Isn't it time you brought sanity back to your immune system? Don't sit back and let your body ambush and destroy itself.

The New Identity Crisis

We are definitely getting fatter, but did you know that we are also getting shorter? Twenty years ago, the average man was 5'10". Now the average man is 5'8 1/2"

It used to be that only menopausal women lost about 1" of height as they experienced calcium loss. Aren't you frightened by what we are evolving into? What will happen to us as a species?

Right now, there are a growing number of nutrigenomic companies and it has the pharmaceutical and food companies drooling. Why? Because now food and drugs can be custom designed around a patient's genetic makeup. Who will pay for this expensive technology at about \$1,000 a visit? You the consumer!

Don't waste your hard-earned money on expensive technology. I've done all the research. Immuno-Max 5 is my *magnum opus* to the vitamin world.

It's not just food that's killing you—it's air, water, and stress!

The air is full of dangerous chemicals that are robbing you of your oxygen. Solvents, paints, ammonia, bleach, and furniture polish. The Glutathione in Immuno-Max 5 is known for fighting these free radicals in your air.

Our water is not much safer. **Chlorine and fluoride are to blame.** Chlorine was originally added to the water to prevent diarrhea-causing bacteria while fluoride was added to prevent cavities. **Both of these culprits also destroy Vitamins A, B, C and E that help fight disease.** Immuno-Max 5 is chock full of these vitamins as well as Glutathione and SOD to do double battle in fighting disease.

Stress! Need I say more? We all have it. It is unavoidable. Every time you are stuck in traffic, your blood pressure elevates slightly. The body also sends chemical messengers into the body to begin the "fight or flight" reaction. **Add that to a poor diet, polluted air, and a questionable water supply and you have an explosion waiting to happen!**

I guarantee that if you don't start taking some kind of antioxidant, you will get at least 1 of the 51 diseases directly related to free radicals. Free radicals in air alone are enough to attack your oxygen molecule and cause cataracts!

Why not let today be the first day of your personal crusade to take charge of your immune system. To ignite your energy. To have more vitality. Immuno-Max 5 is just a phone call away. Your immune system will thank you.

You could be a man with a woman's disease and not know it!

If you think that osteoporosis is only a women's disease, think again. **Osteoporosis is a threat to 2,000,000 American men alone.** Out of this 2,000,000-risk group, 6% or 120,000 of you will have a hip fracture. Why is that?

Page #9

Because bone mass is at it's best in your late 20's and slowly decreases after that. This is where Immuno-Max 5's exclusive ingredient *Hydrilla verticillata* comes into play. It is loaded with calcium and B-12.

Because it was able to outlive the toxins, which were being used to kill it, it absorbs more nutrients from both the water and any soil washing into the water. My research proved that it can even skip a growth cycle making it more powerful!

Why be a victim?

As a doctor, it saddens me to hear week after week, "Doc, I just don't seem to have any energy."

Aren't you getting tired of revving up your body and racing your engine every morning with sugar, caffeine, and nicotine only to find that you need to be "jump started" again around 10:30 a.m.?

Let the super foods in Immuno-Max 3 combined with the tonic whole herb extracts unleash themselves in your body. Don't you want to be able to squeeze in a few extra activities that you didn't have the energy to do before? Energy in the form of Immuno-Max 5 is waiting for you!

Immuno-Max 5 is not just another multiple vitamin.

Again Immuno-Max 5 is the only vitamin on the market today, which contains *Hydrilla verticillata*.

It is specifically formulated for male needs and can even be taken on an empty stomach. I would prefer that you take it 3 times a day with meals, but should you miss a meal—don't worry. It's vegetarian formula is non-acid forming and self-buffering, which means it won't upset your stomach.

Its whole-food nutrients can absorb faster in the body.

But don't just take my word for it

Listen to what other men just like you are saying about Immuno-Max 5:

"Your formula gives me the energy I need to concentrate on the road and the vitamins I need to counteract my "trucker's diet." I'd definitely recommend it to all of my good buddies out there. 10-4."

-- H. Haggerty

{Picture to the right-hand side of H. Haggerty sitting in truck cab. Sent in with testimony}

"Being a single dad, I need to keep my energy level up to keep up with my 2 and 4 year-old sons. I've found that your formula helps me to maintain the balance I need in the time I divide between work and home."

-- T. Young

{Picture to the right-hand side of T. Young rolling around in the yard with his two sons. Sent in with testimony.}

"I'm a nutritionist, and I can honestly say that I haven't seen a better or more natural product on the market that can restore a man's energy and vitality as well as your formula."

-- R. Bellows

{Picture of R. Bellows on the left-hand side with a patient and food chart. Sent in with testimony.}

"Before I got married and had the kids, I was never sick. But you know how it is. The kids pick up all kinds of germs and bring them home. Not anymore. Not for me, anyway. I've been taking our formula for 2 months now and have not experienced even the slightest sniffle."

-- J. Cromby

{Picture of J. Cromby on the left-hand side with family in the kitchen. Sent in with testimony.}

"Your formula makes me feel better about missing a meal, especially when I'm flying, because I know I'm getting all of the vitamins, minerals, and nutrients I need...even with airplane food!"

-- H. Walters

{Picture of H. Walters on the right-hand side with his briefcase and cell phone. Sent in with testimony.}

"But all of a sudden, when I turned 65, I started to feel my age. I thought my sexual prowess had gone the way of the Dodo. My wife didn't say anything, but I knew what she was thinking. [Now] if we do decide to hit the sack early—well, more times than not—I keep my wife awake, if you know what I mean!"

-- K. Rogers

{Picture of K. Rogers on the left-hand side. Sent in with testimony.}

Be A Man Without the Side Effects

As we age, we all have different nutritional needs. Women will noticeably go through menopause and experience hormonal side effects, but what will happen to men?

Two words: prostate cancer. Sometime this year 52% of you men over the age of 50 will be given the verdict of prostate cancer. If not diagnosed in time, it will spread to the colon and urethra. If you are experiencing excessive urination, you may already be on your way to acquiring an enlarged prostate or BPH (Benign Prostatic Hypertrophy).

As a practicing physician, I know that it is not always comfortable talking about this very sensitive subject. Because I know that so many of you will also be a victim of this ruthless cancer.

Remember those pumpkin seeds from whole food extracts that we mentioned earlier? **This is the Male Benefit #1. Pumpkin seeds will improve your prostate function and promote genito-urinary tract health.**

Those same pumpkin seeds working with Vitamin E, iron, zinc, and potassium will promote **Male Benefit #2—healthy libido!**

Still not feeling like a man?

It's hard to feel like a man and please your lady when you don't have the energy or the libido to perform. Immuno-Max 5 will help to restore both the energy and libido that you once had without the harmful side effects.

Recently the FDA has pulled two non-prescription male enhancement drugs, Actra-Rx and Ylisen from the shelves. Both of these had dangerous levels of sildenafil, which can lower blood pressure to unsafe levels.

You are safe with the sildenafil-free formula of Immuno-Max 5. Pumpkin seeds are so harmless that you have can even buy a package of them in the snack section of any convenience store. Great snack. You'd just have to eat too many of them to get the correct amount already calculated for you in Immuno-Max 5.

You may never see Immuno-Max 5 on the side of a racecar.

While many so-called male enhancements place their advertisements on the sides of race cars, we prefer to keep our advertising costs down. All proceeds from Immuno-Max 5 are

Leisa Bain Good
Martin Smith Clinic and Health Awareness Center's Immuno-Max 5 Product
February 22, 2005
(540) 636-8249
Page #12

and will continue to be invested back into my Center's on-going research into men's health issues.

My lifetime goal is to continue to conquer the damaging effects of the Western diet while producing a product second to none on the market today. The only one that contains the superfood, *Hydrilla verticillata*.

While Immuno-Max 5 is now in 37 countries, it is still only available through the Martin Smith Clinic and Health Awareness Center.

Want another benefit? How about better eyesight?

Are you opting for stronger contact lenses or glasses every year? Are you considering the risks of laser surgery? Immuno-Max 5 to the rescue!

Immuno-Max 5 has lutein, a powerful eye protector, that has been proven to help fight age-related visual degeneration. This working with Beta-Carotene and Vitamin E help protect the collagen structures in the eyes blood vessels by fighting off free radicals.

Translation: Better eye sight as you age! So, now you have no excuse for not hitting that golf ball a little closer to the hole!

A caution about RDA

The RDA was established decades ago to determine the minimum amount of certain nutrients required to prevent deficiency diseases like pellagra, scurvy, rickets, birth defects, and rickets.

While most consumers believe that their vitamins are 100% of the RDA, they really aren't. Individuals with special nutritional needs are not covered by the RDAs. These are only the minimums for *healthy* individuals. You know as well as I do that as we age, our health declines.

Unfortunately there hasn't been enough consumer advocate groups to challenge the limitations of the RDA. Not to mention how some multi-vitamin companies actually skimp on ingredients. Once caught, they just write it up as an "oversight" on a particular batch.

We have your RDA covered.

One look at Immuno-Max 5's label, and you can be assured. The herbs in our formula are derived from the best part of the plant. This will allow for instant absorption. No skimping like inferior supplements do by using the stems, barks, or roots of the plants, which can cause digestive disorders.

If the label says 10 mg. of licorice root or ginko leaf for the RDA--it is 10 mg. taken from the best part of the plant! *This is my personal guarantee to you!*

The Cost of Not Taking Immuno-Max 5

In the United States alone:

- **50% of all men and 30% of all women (for comparison) are projected to get cancer in their lifetime.**
- **800,000 new cases of Diabetes are discovered each year.**
- **6 million people are walking around with Diabetes and don't even know it!**
- **1.3 million of us are walking around right now so clogged up with hardened fat in our artery walls that a heart attack would be fatal.**

Add these statistics to the current health care crisis in this country, and things won't be getting any more affordable! More state-run clinics will be filing bankruptcy.

The sicker we get—the more expensive health care will get. Not to mention the overcrowded hospitals, clinics, and outpatient centers. I can tell you that nothing grieves a doctor more than not to get to his patients in time.

Still not convinced?

By now you are probably wondering, "Doc, can't I just buy most of these vitamins and natural alternatives and take them on my own?"

Yes, but how are you managing right now to take those 5 to 7 different vitamins at various times of the day? That must be 12 to 18 tablets a day! Also, aren't you worried about the inconsistency of the many brand names involved? You won't be able to find the super food, *Hydrilla verticillata*, any place but Immuno-Max 5.

Wouldn't it just be easier—and less expensive—to just take Immuno-Max 5 three times a day with your meals?

Page #14

How much easier can we make this?

Stop wasting your time and life on inferior vitamins and miracle cures that just haven't worked.

Fill out the enclosed order reply card or call us toll-free at 1-800-IMMUNO-5 from 9:00 a.m. to 6:00 p.m. EST Monday through Friday. Our friendly customer service staff is ready to answer your questions. All of our vitamins come in tamper-proof sealed bottles for quality and safety.

Remember too when you order Immuno-Max 5 before February 25, you will receive the exclusive *Men's Total Health Forum Newsletter* delivered to your e-mail address free of charge. This newsletter is an absolute must for today's man. Full of the latest health information on men's physical, mental, and sexual health. We will not sell or share your e-mail address either.

Another bonus!

As an added bonus you'll also receive a FREE radio lantern. Be prepared like never before for the great outdoors with this emergency companion. This weather-resistant lantern features a search light, siren, AM/FM radio with a 5-function clock with an adjustable shoulder strap. A \$15.95 value ABSOLUTELY FREE. *But hurry supplies are limited. There is a limited supply put aside just for this promotion.*

And one more bonus!

Enjoy the benefits of state-of-the-art hydroponics gardening. **Introducing the EarthBox.** It's gardening for the New Millennium. Requires no weeding, digging, hoeing or watering! No, kidding! Yours for the keeping! **A \$25.00 value free just for trying Immuno-Max 5.**

But will Immuno-Max 5 work for me?

Yes! Why? Because Immuno-Max 5 worked for these other men—that's why. On the inside, we are all the same. This is why we as physicians can have textbooks on human anatomy and physiology. Our biceps are various sizes. Our personalities are different. Our body sizes are different. But we are all the same on the inside.

All of our male anatomy works the same as any other man's. Even as a practicing physician, my stomach works just like your stomach. My liver works is located in the same place as yours.

Page #15

So if these testimonies from these men have worked for them, they'll work for you. It is as simple as that. Now having said that, the degree to how well and how fast Immuno-Max 5 will work for each of us will vary. Based on our age, overall health, and body weight, results may vary. **The bottom line: Immuno-Max 5 will work for you!**

So, what are you waiting for? Fill out the order form today! Take advantage of the three FREE gifts.

There may be one side effect with Immuno-Max 5

I must be upfront and honest about this one. While you begin reaping the benefits of Immuno-Max 5, your body may experience confusion.

I knew it. I knew it. You must be saying. Immuno-Max 5 was too good to be true.

Please let me explain. Your body has two ways of aging. Chronologically and biologically. Your chronological age is your actual age. What's on your driver's license.

Your biological age is the rate that your body is aging. This is why some men will look and act much younger than they really are. And some will look and act twice as old.

As long as you don't mind people asking to see your driver's license. You'll be fine with Immuno-Max 5. After all people will begin to get suspicious and maybe a little jealous when they see a man like you. Looking half your age with a well-toned body. Very little gray hair. Energetic. Keen mind. Able to beat men half their age at tennis. *Expect confusion, okay?*

Then why believe in anything?

How do you think that I felt after spending most of my 20's and 30's in medical school? Then finding out that medical science as I knew it couldn't even save my own father from a bitter old age.

The air and water aren't even as safe as we once believed. Our diets are even destroying our bodies instead of nourishing them.

By now you must be feeling very frustrated and wondering, "Well, what can I believe in?"

Within the next thirty days I challenge you to slow down the clock, and head back to a younger, healthier, more sexually active you. Start reversing the aging process from your first day with us.

Page #16

It's still worth a try

Genes and heredity are seldom on your side. Time is never on your side when you are too tired to go on. ***It is important to act now!***

You see when you order Immuno-Max 5 you're ordering a lifestyle. Not just a vitamin. Once you begin taking it, you'll realize that it is a lifestyle packed with a more youthful you and filled with more energy, health, and vitality! This can only spill out into a better you. A better father. A better husband. A better lover. Even a better, more-productive employee. It will only spell health and wealth for you and your family.

Do the math and calculate the cost

Whether you order a 30-day, 60-day or 90-day supply all of the gifts are yours to keep. No problem there. But if you really did the math, you would find that on the 90-day supply, you would save \$43.80. On the 60-day supply you would save \$19.90. So you do the math and decide how much you want to save.

All math aside, for about a dollar a day, you can take charge of your new healthier lifestyle. That's about what you've been paying for that cup of coffee in the morning, isn't it?

I urge you do not wait another day for vitality. My friend, you are in a war zone. The water, air, food, free radicals, genes, heredity, and time. You're outnumbered. Your only ally is TIME. Today is all you have. You must act now. Today.

Make that phone call *now* at 1-800-IMMUNO-5.

Sincerely,

Dr. Martin Smith
Founder and Director
The Martin Smith Clinic and Health Awareness Center

P.S. When you order Immuno-Max 5 today, you'll be taking charge of your health with a powerful, all-natural product. We'll even add you to our free *Men's Health Forum Newsletter* the day that we receive your order. You'll receive an e-mail confirmation and will be able to go back to the archived issues as well.

P.P.S. Immuno-Max 5 is backed by our 100% money back guarantee, so there's nothing to lose! Should you not be 100% satisfied with Immuno-Max 5, then send back the unused portion. No questions asked. No salesman will call. All three gifts are still yours to keep just for trying Immuno-Max 5.
